WELCOME TO MY ART OF ENCHANTMENT

My creative explorations draw from the natural world that surrounds me. I see so much beauty in my world. I am inspired by many things, from objects and shapes to architectural detail, and every day life - from the finest of bird feathers to the organic structures of the world. It all starts from observing the wondrous colour, intricate detail and geometric construction that nature so masterfully presents.

Referring to the natural world, I enjoy combining realism and surrealism through a range of mediums - from pen/ink, to graphite, to acrylic to create magical creatures and motifs. Though my subject matter may vary, the detail and pattern within remain constant, as I strive to execute the intricacies of each piece.

My work covers many genres, mediums and techniques. I enjoy the charm and freshness that new combinations can provide. Art has always been my escape from the everyday routine. I'd like to think that my creations live in a world where nature and imagination come to play. I have exhibited in multiple group exhibitions and competed in art shows over the last few years. I believe now is the time for others to see what usually hides in my art folio.

I look forward to opportunities to license my work. Nothing would make me happier than for someone else to delight in the images I have designed - to echo that same sparkle and feel good vibe I had when I initially created it. Ultimately, art makes me happy and I hope that happiness can be contagious.

I welcome any enquiries regarding the use of my artwork and look forward to creating a lasting relationship with my licensees.
