PAINTED LADY STUDIO - BRIGHT STAR FROM AUSTRALIA

Welcome to Painted Lady Studio!

I'm Melissa Hamlyn a surface pattern designer, printmaker, digital artist, and founder of Painted Lady Studio based in Sydney, Australia.

Whether you're an art lover, a commercial surface design company, or both, Painted Lady Studio has something for you. I'm here to help you move beyond bland art and design, and help your work and home reflect who you really are.

Maybe you're an art lover looking for an individualized touch to your home or office? Are you looking for a gift? Or are you a design business on the hunt for fresh talent and creative flair to pair up with and license work from?

My style is modern and eclectic. I am a maker of beautiful things, a lover of colour, a seeker for the weird and wonderful. I believe in creating art and design that speaks to you and your unique sense of style.

If you look at my work, you'll see what I mean: colour that's bold and saturated but not so extreme it loses its subtlety; shapes that aren't abstract per se, but not easily identifiable either—they speak to your heart instead of your brain and are designs that tell stories.

Whether you're wanting a design for clothing, wallpaper, ceramic, or anything in between, my unique visual language will grab your attention. And don't worry if you need something tweaked—I'm happy to customize my designs to fit your brand or space.

My artwork isn't limited by size or format—whether you want something small and personal or something big enough to cover an entire wall, I've got you covered.

Are you looking for something new and different?

I created Painted Lady studio to make motifs that are designed to be mixed and matched to create unique surfaces.

My motifs are inspired by the natural world around us, with motifs ranging from quirky gingham dots to metallic marble.

The **The Flower Temple** collection was made to appeal to free-spirited individuals who embrace the unconventional in all forms. For those that go with the flow and embrace change.

Each motif piece has been designed with simplicity in mind, as well as functionality.

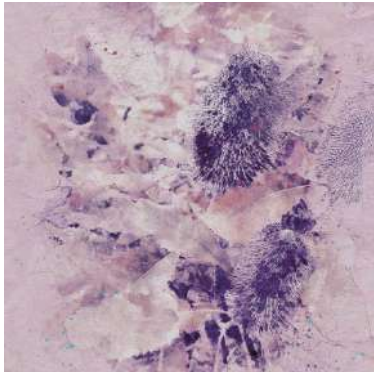

Coordinates inspired by nature, with a twist of an airy approach, this collection is all about lightness, movement and reflection.

The focus on the beautiful and delicate nature of flowers

Dedicated to the unique shapes and vivid colours that are often present on all flowers. Accentuating this with minimalist designs, the collection creates an air of playful sophistication.

Keep exploring to see my newest designs!

PAINTED LADY STUDIO - BRIGHT STAR FROM AUSTRALIA

Are you looking for a way to make your space more beautiful?

I create art as a way of making a society where humans enjoy their work and have a sense of making beautiful and useful things.

My obsession with colour, patterns, and motifs comes from my curiosity about mythology and our collective experiences of past, present, and future.

I want to help people create their own homes that are filled with items they find both beautiful and useful.

In Bloom Wildflowers collection is inspired by finding so much beauty held in the collection and collation of individual plants and flowers, pods, and leaves. Individually and collectively, they underline the intention and desire to connect with the natural world.

Plants and flowers have long been an inspiration to man cultures weaving their way into folklore and eventually ancient beliefs and myth.

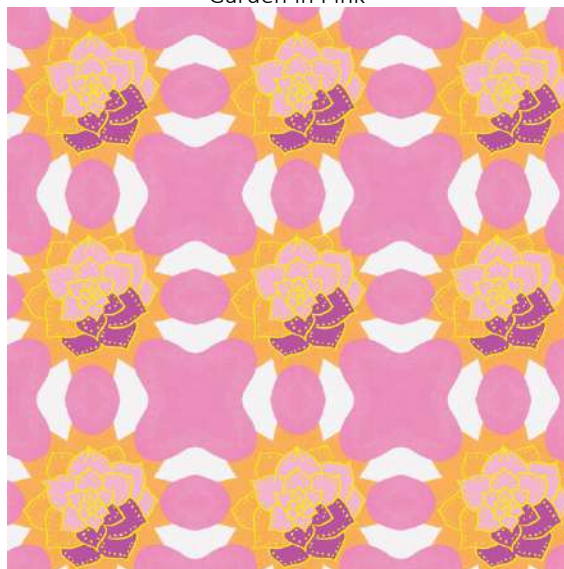

Flowers and leaves are ingrained into our lives more than we might think.

Are you looking for a one-of-a-kind pattern?

Painted Lady is a studio that creates unique and one-of-a-kind designs. I use motifs from plants, animals and iconic sights to create a pattern that is perfect for your home or business.

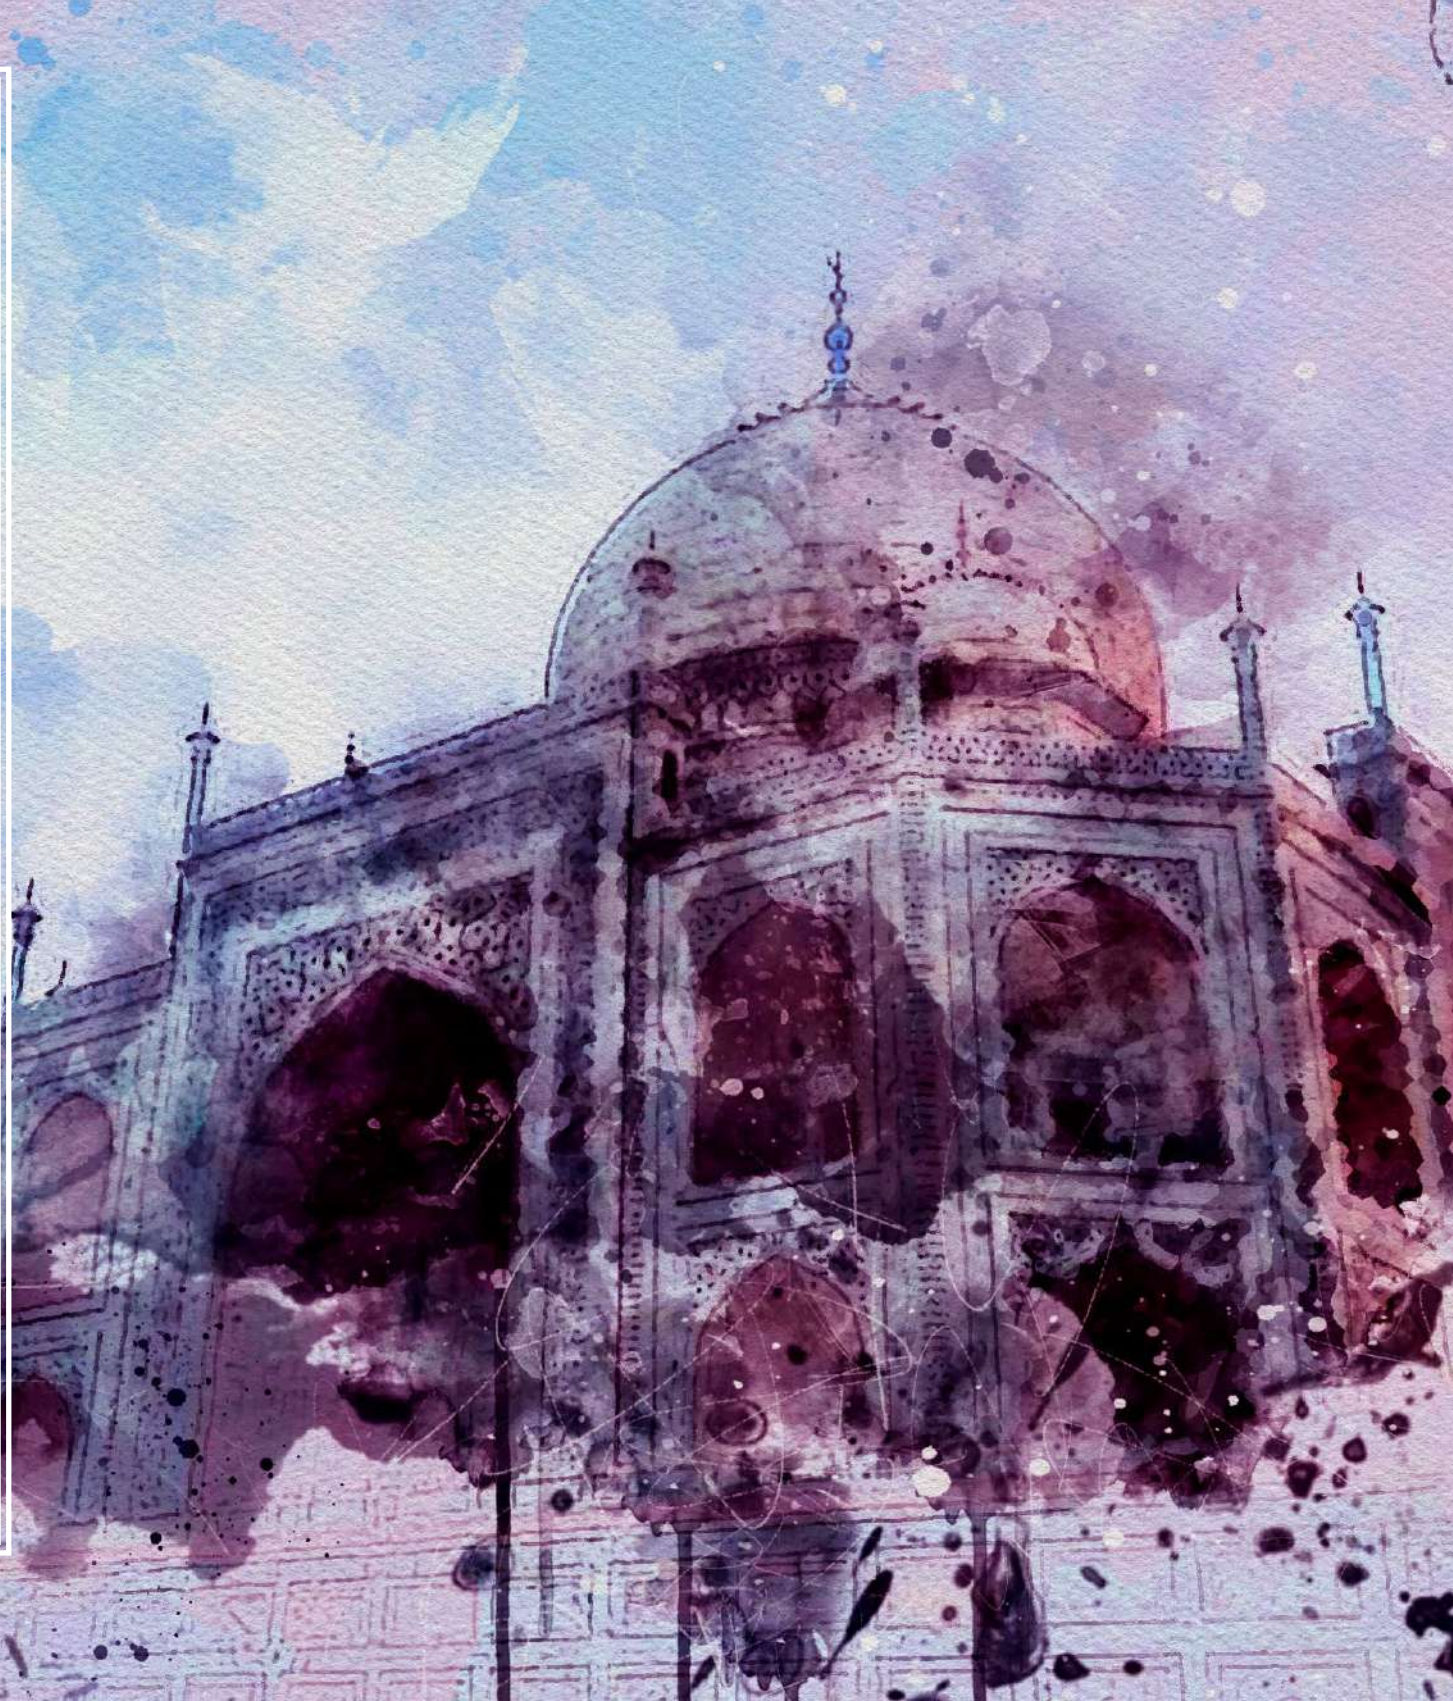

I believe in constant experimentation and exploration of new techniques and materials, so they can always be on the forefront of design.

By exploring this, we can all find our own sense of creativity, beauty, and usefulness.

I make art and design products that are inspired by the beauty in nature and the world around us. I love to explore mythology and symbolism through my work.

You can choose from a wide range of motifs and colours or work with me to create something completely custom.

The studio has created a fresh, modern take on the traditional surface pattern, and I want to share my creativity with you!
