Painted Lady Studio – Mixed Media Artist

Welcome to Painted Lady Studio!

I'm Melissa Hamlyn a surface pattern designer, printmaker, digital artist, and founder of Painted Lady Studio based in Sydney, Australia.

Whether you're an art lover, a commercial surface design company, or both, Painted Lady Studio has something for you. I'm here to help you move beyond bland art and design, and help your work and home reflect who you really are.

Maybe you're an art lover looking for an individualized touch to your home or office? Are you looking for a gift? Or are you a design business on the hunt for fresh talent and creative flair to pair up with and license work from?

My style is modern and eclectic. I am a maker of beautiful things, a lover of colour, a seeker for the weird and wonderful. I believe in creating art and design that speaks to you and your unique sense of style.

If you look at my work, you'll see what I mean: colour that's bold and saturated but not so extreme it loses its subtlety; shapes that aren't abstract per se, but not easily identifiable either—they speak to your heart instead of your brain and are designs that tell stories.

Whether you're wanting a design for clothing, wallpaper, ceramic, or anything in between, my unique visual language will grab your attention. And don't worry if you need something tweaked—I'm happy to customize my designs to fit your brand or space.

My artwork isn't limited by size or format—whether you want something small and personal or something big enough to cover an entire wall, I've got you covered.

The Destination Collection

Travel has long been a passion of mine, so I decided to share my love of exploration in the new collection.

The Destination Collection evokes the feeling you get when you experience something new—the thrill and anticipation that comes from exploring an unfamiliar place or trying another culture's language for the first time.

Traveling is not just about seeing new places; it's an adventure that takes us out of our comfort zones and into new worlds.

My new collection is inspired by landmarks from around the world. And it's not just a photo—it's an art piece, a mix of watercolour and collage that brings these places to life in a way that will make you feel like they're right there in front of you in beautiful detail.

The Destination Collection also gives you an opportunity to create your own travel memories with your family and friends. It's a perfect gift for the traveller in your life—whether they're planning their next trip or reminiscing about past adventures!

From the Eiffel Tower to Big Ben to the Taj Mahal, this collection will have you dreaming of where you'll be going next.

Tales of the Sun

The thematic elements were inspired by Greek architecture and natural beauty while the colour scheme reminds me of fresh blooming lilies (a Greek symbol strong significance).

For a classic look reminiscent of elegant roman baths, or if you prefer something more contemporary go for designs with geometric patterns taking inspiration from ancient Greek materials.
