As an artist, she brings a unique blend of analytical thinking and artistic flair to her work, both combining hand-drawn, hand-painted, and digital creations. She is inspired by diverse styles like Renaissance, Modernism, Cubism, the Arts & Crafts Movement, and the hand painted tile traditions of Europe, North Africa, and the Middle East. With acrylic and watercolor paints and digital drawing tools like Procreate, Adobe Photoshop, and Adobe Illustrator, she is constantly exploring new techniques.

She loves to capture the intricacies of everything from structural buildings to a flower's veins; this serves as inspiration for the unique shapes, colors, and textures in my artwork. Her artistic style can vary from whimsical to serious and geometric, but they all have one thing in common – the ability to capture the intricate connections and relationships found in the natural and manufactured world.
