Janiel Hsieh

Janiel is a self taught artist. Her main body of work is watercolor/gouache floral paintings and repeat patterns. She's expanded her repertoire and included lovely animals and other interesting topics such as fruits and festive themes. In general her painting style is intuitive and fine, but not so much emphasis on realistic illustrations. Instead, she grasped the soul and essence, materialised them with her brushstrokes. It is the warmth in the handcraftsmanship that gives her designs the versatility to breathe lives into any surface project.

She was born and raised in Taiwan. In her childhood she's always enjoyed drawing, painting and making art. Then she migrated to Australia in 2016 to pursue a life that she longed for.— And she made it. But it wasn't until 2017 that she picked up her paint brush again. As a nurse she works part time and nurture her artistic inner child in her spare time. As she finds something captivating in those art-making moments through her hands, she aims to be a full time licensing artist in the future..

The image shows a room with walls covered in a large-scale floral wallpaper featuring black roses on a light background. A window with a white frame is partially covered by a light-colored blind with a repeating circular pattern. The window looks out onto green trees. In the foreground, a white armchair with a wooden frame is visible. To the left, a wooden cabinet with a cane screen is partially seen. A semi-transparent white box contains the product name and collection information.
